

Denture Delivery (Full and Partial)

Purpose: Replacement of missing teeth with removable full or partial dentures.

First 24 Hours:

- Wear dentures as instructed, often for the first 24 hours continuously to help your mouth adjust.
- Minor soreness or pressure spots are normal.

Pain & Sensitivity:

- Use OTC pain relievers if needed.
- Warm salt water rinses can help relieve sore spots.

Oral Hygiene:

- Remove dentures daily for cleaning using a denture brush and cleanser.
- Clean gums, tongue, and any remaining teeth with a soft brush.

Diet:

- Start with soft foods cut into small pieces.
- Chew slowly using both sides of your mouth.

Special Precautions:

- Do not attempt to adjust dentures yourself; this may cause damage.
- Keep dentures moist when not in use to prevent warping.

Follow-Up:

- Expect adjustment appointments to relieve sore spots and improve fit.
- Contact the office if discomfort persists or dentures feel loose.
