

Occlusal Guard / Nightguard Delivery

Purpose: Custom appliance worn over the teeth to protect against grinding, clenching, or jaw disorders.

First 24 Hours:

- Wear the guard as instructed, usually at night or during specific times of day.
- Some initial tightness or mild discomfort is normal.

Pain & Sensitivity:

- Mild tooth or jaw soreness may occur during the first few days.
- Use OTC pain relievers if needed.

Oral Hygiene:

- Rinse the guard with cool water after each use.
- Brush it gently with a toothbrush and non-abrasive toothpaste or mild soap.
- Store in a ventilated case when not in use.

Diet:

- Do not eat or drink (except water) while wearing the guard.

Special Precautions:

- Avoid exposing the guard to hot water, which can warp it.
- Keep away from pets, as they may chew on it.

Follow-Up:

- Bring the guard to dental visits for evaluation and cleaning.
- Contact the office if the guard becomes loose, cracked, or uncomfortable.
