

Tooth-Colored Fillings (Composite Restorations)

Purpose: Restoration of decayed or damaged teeth using composite resin for a natural appearance.

First 24 Hours:

- Avoid chewing until numbness wears off.
- Composite fillings harden immediately, but chewing may cause discomfort initially.

Pain & Sensitivity:

- Mild sensitivity to pressure, temperature, or sweets may occur for a few days.
- Use OTC pain relievers if needed.

Oral Hygiene:

- Brush and floss normally, taking care around the filled tooth.

Diet:

- Avoid very hard or sticky foods for the rest of the day.
- Resume normal diet as comfort allows.

Special Precautions:

- If your bite feels uneven after numbness wears off, contact the office for adjustment.

Follow-Up:

- Sensitivity should gradually decrease.
- Contact the office if pain worsens or persists beyond a week.
