

Amalgam Fillings

Purpose: Restoration of decayed or damaged teeth using a silver-colored amalgam material.

First 24 Hours:

- Avoid chewing until numbness wears off.
- Amalgam fillings take about 24 hours to fully set, so chew on the opposite side.

Pain & Sensitivity:

- Mild sensitivity to pressure or temperature may occur for a few days.
- Use OTC pain relievers if needed.

Oral Hygiene:

- Brush and floss normally, being gentle around the filled tooth.

Diet:

- Avoid very hard or sticky foods for the first day.
- Resume normal diet after 24 hours.

Special Precautions:

- If your bite feels uneven after numbness wears off, contact the office for adjustment.

Follow-Up:

- Sensitivity should gradually decrease.
- Contact the office if pain worsens or persists beyond a week.
