

Post-Operative Instructions

After Placement of Orthodontic Aligners

Initial Adjustment

- Expect tightness or mild soreness for the first few days.
- Speech may feel different but should normalize quickly.

Wear & Care

- Wear aligners 20–22 hours per day.
- Remove only for eating, drinking (except water), and cleaning.
- Clean aligners with a soft toothbrush and clear, unscented soap.

Diet

- Remove aligners when eating.
- Avoid sugary or colored drinks with aligners in place.

Special Precautions

- Always store aligners in the provided case when not in use.
- Contact the office if aligners crack or are lost.
