

Dental Rescue Bot Library -
Medical Disclaimer (PDF)

Interactive artifact

I've created a professional PDF-ready version of the medical disclaimer. The document features:

- **Professional formatting** with proper typography and spacing for legal documents
- **Print-optimized layout** that will format correctly when saved as PDF
- **Download PDF button** in the top right corner - click it to save as PDF
- **Clear section headers** and highlighted important notices
- **Proper legal document structure** with appropriate emphasis and formatting

To download as PDF, simply click the "Download PDF" button in the top right corner, which will open your browser's print dialog where you can select "Save as PDF" as the destination.

CG the download button is not working.

You're right, let me fix that. The print function should work properly now.
