

Orthodontic Appliance Delivery (Expanders, Retainers, etc.)

Purpose: Placement of a custom appliance to aid in orthodontic treatment or retention.

First 24 Hours:

- Mild soreness or pressure is normal as you adjust to the appliance.
- Speech changes or increased saliva production may occur temporarily.

Pain & Sensitivity:

- Use OTC pain relievers if needed for discomfort.
- Warm salt water rinses can help with soft tissue irritation.

Oral Hygiene:

- Brush and floss carefully around the appliance.
- For removable appliances, clean daily with a toothbrush and mild soap or appliance cleaner.
- Avoid hot water, which can warp plastic components.

Diet:

- Avoid hard, sticky, or chewy foods that could damage the appliance.
- Cut food into smaller pieces for easier chewing.

Special Precautions:

- Wear the appliance as directed to ensure treatment success.
- Store removable appliances in a protective case when not in use.
- Keep away from pets, as they may chew on them.

Follow-Up:

- Bring the appliance to all adjustment or check-up appointments.
- Contact the office if the appliance becomes loose, damaged, or causes sores.
